

Aidanlane.net

Short pitch:

This is my portfolio and about site for colleagues and potential employers to showcase my work and talents in application development and data science.

Long pitch:

My name is Aidan and I am a young software engineer and data enthusiast currently studying at Michigan State University. Here you will find examples of my work in developing consumer grade applications and data exploration projects. In addition to my resume and work, you might also learn a little about me on the way.

Personas:

Recruiter 1

Potential recruiter for software development

Recruiter 2

Potential recruiter for a data science role

Professional Colleague

Mentor at a new job looking over my work
